### **Cardio-Metabolic Assessment Test 35-Million-Dollar Special Funding**

Clinic Resource Group Holdings, LLC. has received 35-million-dollars in special funding for qualified hospitals, clinics, and physician practices. ***Under the funding program Clinic Resource Group Holdings, LLC. provides a full turn-key NO COST solution that includes CMAT devices, paid on-site testers (yours or ours), billing training, tester training, healthcare provider training, installation of the device, technical assistance, and customer service.***

#### **What is the CMAT Advantage?**

The CMAT Advantage (Cardio-Metabolic Assessment Test) is a state-of-the-art FDA approved 7-minute non-invasive risk assessment device to evaluate patient symptoms and complications associated with chronic disease.

**Ron Riewold, CEO of Clinic Resource Group Holdings, LLC. says, "We are very excited to offer CMAT to clinics hospitals and physicians. Over the last ten years, CMAT has saved many heart attacks, aneurysms, and strokes. It is a wonderful assessment test physicians use to diagnose and determine if the patient is digressing or progressing. It will also determine insulin resistance and if a peripheral neuropathy is vascular or neurological, and so much more."**

**CMAT provides immediate assessment test data for diagnosis and treatments.**

**70% or more of facility and physician patients qualify for testing.**

**The CMAT does not require a specialist such as an RN or NP to conduct testing.**

#### **Medical Facilities**

The CMAT Advantage is a key resource in utilization management and care transitions in Discharge Planning, Reducing Readmissions, Complications, Emergency Departments, Clinics, and hospital return days. CMAT assists Critical Access Hospitals and Swing Bed Care facilities in meeting core guidelines in Emergency Department Transfer Communications.

#### **Physicians – Primary Care Practitioners, Cardiologists, Neurologists, Internists, Orthopedics, Chronic Disease Management, Wellness Specialists, Pain Management, Physical Medicine, and Rehabilitation**

Practices that utilize ancillary treatments like Pain Management, Weight Loss, Knee Injections, Wound Care, Diabetes Relief, and such Modalities the CMAT is a great tool to show patients progression of treatment.

-----  
The CMAT Advantage test is covered by Medicare, Medicaid, and Commercial Insurance. It is helping thousands of doctors and facilities offer better treatment to their patients while generating a substantial revenue stream.
